NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Corner of Second and Morrison Streets
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling invented by H. K. Hoagland we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used

It fastens without bolt or screw and is therefore easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant and is convenient safe and secure

It is easy to change to this style of coupling any buggy or other vehicle now in use and with small expense. We have come to the conclusion to use this coupling ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent heretofore considered the best in use

General Sherman on the Army Bill

LETTER TO SENATOR WILSON

Though the date of Gen. Sherman's letter to Senator Wilson in regard to Gen. Logan's Army bill is becoming somewhat old we give the letter as an illustration of the vigorous positive and impetuous character of the writer. As he fought so he writes his hurried incisive sentences rattle upon the ear like a volley of musketry but go straight to their mark and not only can it be said that all can understand him but that none can misunderstand him let them be ever so inclined. We cannot refer to his argument without expressing anew our admiration for his inimitable style formed without effort and used without conscious ness and as clearly stamped with the individuality of the man as the narrative of Cæsar the dispatches of Wellington or the bulletins of Napoleon

WASHINGTON March 22 1870.

Hon Henry Wilson Chairman Military Committee, United States Senate—

Dear Sir—I have been repeatedly urged by friends and even by members of Congress to give to the country my views of the bill reducing the number of officers in the army which recently passed the House of Representatives and of the speech with which Gen. Logan accompanied it. It is positively prohibited to officers of the army to resort to the press in official matters but it is eminently proper that you who have requested it should know my opinions of the matters involved and accordingly I submit them to you in the form of a letter

The first defect of this bill is one of omission. The law of 1866 fixing the peace establishment clearly described what the peace establishment should be. The appropriation bill of March 3, 1869 brought 10 regiments of infantry and prohibited all future promotions and appointments in the staff corps till the prohibition should be removed by Congress. By the operation of this enactment all the staff corps and departments will cease to exist with the lives of the present incumbents and very soon we will have insufficient Quartermasters Paymasters Surgeons etc. to provide for the absolute necessities of the troops in the field. Congress should now fix some standard for these corps and let us work to that standard. The assertion made by Gen. Logan that the number of staff officers in our small army exceeded those of France and Russia, is so wide of truth that it does not admit of argument. Our army of 40 regiments would make two corps d'armee or six divisions or 12 brigades requiring for actual service one General two Lieutenant Generals six Major Generals and twelve Brigadiers whereas we have one General one Lieutenant General five Major Generals and eight Brigadiers. If you will send to the Congress Library for Hart's Army List for 1869 you will find in the English army estimated at 130 000 men the names of four Field Marshals eighty Generals 146 Lieutenant Generals 476 Major Generals and 791 Colonels. The French army contained at latest dates 400 Marshals and Generals 611 Adjutant and Inspector Generals, 632 Engineers, 315 in the Ordnance corps and other officers performing duties which correspond with those of our staff amounting with the above to the aggregate to 2 567 officers exclusive of their surgeons and assistant surgeons. Thus the French army has more Generals alone than we have of Generals and staff together and more Engineer officers than we have in all our staff corps put together. In like manner the North German (Prussian) army has 49 Generals 5 Lieutenant Generals and 99 Major Generals ... Staff (proper) 50 Adjutants 332 Engineer officers 298 Surgeons 304 Paymasters and other officers corresponding with our staff including the above amounting in the aggregate to 3 181. I cannot imagine where Gen. Logan got his figures but having himself alluded to foreign armies it is right that this correction should be made right here. This bill provides for the absolute discharge of two Major Generals and two Brigadier Generals leaving in the army three of the former and six of the latter. To compel the President thus to discharge four of his old Generals who have served under him and who have fairly earned their commissions will be the most ungracious task that was ever imposed upon the Executive more especially when he has just expressed the opinion that their services are needed and are not in excess of the army organization. Our present heads of bureaus have now the rank and pay of Brigadier Generals and this bill proposes to muster them out or give them the hard option of dropping back to the rank of Colonel. None but a soldier can realize the cruelty of this measure, and to characterize such men as General Meigs and General Eaton as inspectors of shoes and bean soup on the floor of Congress is a taunt unworthy the place for Congress itself has imposed on these very officers by name administrative and judicial functions that heretofore have been the province of learned judges. Claims involving hundreds of millions of dollars and the most complicated principles of law have been adjusted by them saving millions of dollars to the national treasury and eliciting the hearty approval of the members of Congress who have witnessed their labor and fidelity. I need not constitute myself their advocate for I have heard you bear testimony to the truth of the above statement. If Congress cannot afford them the salary of Brigadier Generals it should be so declared and not based on the measure and importance of their work. To reduce an officer from one grade to a lower has hitherto been done only as an extreme penalty of the law on conviction by a court for some misdemeanor

I confess when listening to the debate ... I ... of Representatives on the army bill ... when an amendment was proposed to permit retired officers to hold civil office I was pained ... the remarks of members who seemed to ... something very wrong ... already ... the President from putting a retired officer on military duty ... and ... under consideration ... further provided that they shall not even be eligible to such ... the ... as their neighbors ... to elect them to fill ... Senator ... a day ... to ... duty ... retired officer ... was prohibited by a law of ... Congress. He was ... because he ... humanity and he would not believe ... law itself. Now ... these ... soldiers are barred from one direction ... and to cut them off in another direction ... The Senate has just confirmed as Minister to Spain General Sickles who is a retired ... crippled officer. By this bill he will be ousted and all of those officers will be debarred from increasing their small pensions by earning the fees of civil officers for which they may be eminently fitted and whose salaries would ... may be an ... to ... of ... What ... ... officers of ... heroes who ... and ... and ... of ... vary ...

In England and other lands where ... deeply ... the veteran officers and soldiers are eligible even to Parliament as well as to all other civil ... and are universally appointed to the ... without limit or prohibition and with ... together half pay. What reason is there that a retired officer whom the President cannot appoint ... military duties, may not be a postmaster ... marshal ... sheriff of ... county judge a magistrate or hold any of the ... hundred thousand civil offices that necessarily exist under our general State county and municipal governments. When I recall that in 1862 ... government was paying $300 bounty to soldiers and some of our States counties and towns swelled it to $1 100 and when our country men were shouting aloud the praises of our heroes and men little dreamed that ... such as had the misfortune to be maimed and crippled would be denied the simple privilege of enjoying the salaries of civil officers in addition to such limited pensions as the government could afford. Then nothing was too good for the valiant officer and soldier now, how changed! General Logan intimated that the aggregate reduction of expenses by this bill will be $2 000 000 a year. I assert that this bill makes no reduction of expenses at all for he himself says that the principle of this bill is to take from higher and to give to the lower grade of officers and the bill touches no other items of expense

Death is already doing its work among our veterans ... being susceptible of proof that the death rate among officers and soldiers of the late war though they may have escaped the bullet, is at least double what is the case with civilians of like age and condition who stayed at home. The number of officers left in excess of the organization one year ago was 622 the number in excess to day is 485 showing a diminution by death, &c., of 137. There are 105 vacancies in the grade of second lieutenants which can be filled from this list by allowing two first lieutenants to a company and the extra captains and now for Indian service until the aggregate comes down by ordinary casualties to the standard of law. There are 66 vacancies in the staff corps of the army which would be filled by promotion and from this list, if the legal prohibition were repealed. When the retired list is increased to 250 as universally proposed in the Logan bill as well as in all others there will be places for 80 more of these officers. Thus 250 of the present surplus will be absorbed, and there will remain in excess only 235. Of these I am free to confess the army can spare 100 or more by reason of their proven unfitness for military service, leaving the surplus only 135, which is less than the casualties for the last year, so that there is no good reason why Congress should forcibly muster out any of these officers on the plea of economy. We have plenty of work, and more too for every officer now in the Army Register who is willing and fit for his profession. I assert that since the close of the civil war no class of our people have conformed more cheerfully to the demand for economy on the part of the general government than the army itself, and no class of men ever surrendered back the exercise of power and authority with more grace and patriotism than its officers

The very instance which General Logan quotes is proof of this. Many captains and many subalterns but a few years ago were leading brigades in battle, or commanded divisions. Congress in the reduction of 1866, generally allowed them to prescribe their insignia of rank at their own expense, so that the strap of a Major General may be seen as General Logan says, in the rank and file. Can this be a cause for a sneer on the floor of Congress? Is it not rather a sign of national pride, that we have in our ranks, as Captains and Lieutenants men who in war have already proved that they are qualified for higher command? At all events, there can be no economy in this, for the law clearly provides that an officer shall in no event receive one cent additional pay by reason of the simple privilege of wearing the shoulder strap of his former grade. That only tells his fellow soldiers that he had once commanded a brigade or may be a division in battle

I admit the brevet system was shamefully abused about the close of the war; that brevet rank was lavishly and recklessly bestowed—it may be as reward for political service, for family influence and for other objects never sanctioned by the army itself. This was not the act of the army but of Congress or of the President of the United States who may thus have cheaply rewarded men who had never heard a shot but who wanted some sort of military fame. I believe that these brevets do disturb the unity and harmony of the army, and they should never have been bestowed save for bravery in actual battle. Therefore I am willing that they should all, bad and good alike, be abrogated, but it should not be accredited to economy, for Congress long since took good care that these brevet commissions should carry no pay or recompense whatever. I do not object to a salary bill or any bill, Congress may in its wisdom, adopt.

I have strenuously endeavored to diminish the expenses of the army wherever or whenever my authority was adequate. I found, on my arrival here my headquarters in a hired building used by my predecessor. I did not occupy it at all but moved with all my staff into three rooms of the War Department building. I found a regiment of infantry in Washington a company of artillery and a company of cavalry. The infantry regiment is now in Arizona the company of cavalry is to start April first for the plains and the artillery company goes to Newport R. I. to replace the troops sent to North Carolina

Personally I occupy the same dwelling which Gen. Grant did before me which some kind friends in New York and Boston bought and presented me and I have spent every cent, and more too of the pay allowed me by law in keeping it up. I have endeavored to entertain my friends come from what quarter they might, and have given some dinners and some receptions, and hope to do so again at my own expense not the people's. If my pay is reduced I may not be able to do it to the same extent hereafter but never will I receive the courtesies or hospitalities of others unless I can reciprocate them. Invidious comparisons have been made between my salary and that of the chief justice and cabinet ministers. All I can say is that it is and has been a shame that a country with 40 000 000 of people should starve their Chief Justice and cabinet ministers as this government now does

The President himself assured me, before I came to Washington that I could not live on my salary here if I had to pay the rent of a house and in his annual message he called attention to the inadequate pay of the Justices of the Supreme Court and inferentially of the Cabinet Ministers. If it lay in his power I believe this disparity would not exist an hour and that he would not be ... The demagogues might, of course, cry aloud "Extravagance!" but the people would say Amen. The people of this country when appealed to are not mean. They want real economy and honest responsibility and these are all ... I claim that I have earned my past and present pay ... but during the war when I commanded more men than the Duke of Wellington had in Spain my pay as Brigadier and Major General was less than ... private ... and that though I lived on a soldier's ration my pay was not more than enough to maintain my family ... I did not complain then ... but I believe that my present pay is not wholly for present work ... a great part for past services. I will say the same ... of all the Idan Meade Thomas ... officers ... and it is not ... who ... are married ... what use they make of their salaries. ... What money will pay Meade for Gettysburg? What Sheridan for Winchester and Five Forks? What Thomas for Chickamauga ... Nashville? What American would tear these pages from our national history for the few dollars saved from their pay during their ... lives? I honestly believe that the ranks of General and Lieutenant General should remain as incentives to exertion in all time to come and ... the ... of honor during ... war ... would be an act of ... as to them personally which the country does not demand but quite the contrary.

I make this ... appeal ... not for myself but for the army and for my comrades for whom I have a right to speak in their absence. I have the honor to be your obedient servant

W. T. SHERMAN General

An Instructive Contrast

[illegible] want [illegible] such [illegible] case [illegible] he raised it at a low rate of inter[illegible] per cent [illegible] her with the fact that [illegible] terms [illegible] pure [illegible] America But [illegible] press here have misinterpreted [illegible] and instead of trying [illegible] easing [illegible] meet [illegible] countries [illegible] to the [illegible] tates If any they a despotic Government in Europe which may at any [illegible] by a revolutionary outbreak [illegible] all the money it needs on the most favorable terms why may not the United States Government do the same The answer is very simple There is a powerful party here that is continually attacking the public credit Such manifestoes as that put forth by the Albany Convention in our own State clear up at once the mystery which they seek to have explained

Except this, there can be no valid reason why our Government might not expect to negotiate at once a loan at as low a rate as four and a half or five per cent to take the place of the six per cent bonds at present in the market The resources of the country its marvelous growth and the greatness of its future are all in its favor No national debt in the world rests upon a foundation so solid as ours, estimating it simply in relation to the paying capacity of the Republic as compared with that of any Old World monarchy On the other hand, no Government in Europe is exposed to the systematic detraction and enmity which meet ours at every turn

The French Government for example, has its opponents, able and energetic Its financial management is the theme of searching criticism Its enormous expenditures are analyzed continually and in a spirit unfavorable to the judgment of its functionaries There, however, the opposition rests While assailing the Government, it scarcely respects the public credit Repudiation is neither advocated nor predicted The Government faith is not assailed, nor is doubt cast upon the value of its securities The opponents of Napoleon do not try to make partisan capital at the expense of the honor and welfare of the nation

Our opposition pursues a widely different course It respects neither the honor, faith, nor credit of the nation It disregards the most sacred obligations As it respects not the promises of the Government, it cares not for the future welfare of the country It does not hesitate boldly to propose repudiation whenever it thinks it a safe step for the party to do it. Everything is subordinated to party, and this spirit of faction does not hesitate to barter the welfare of the country, and to traffic in its dishonor, when it can see in such a course a supposed advantage This is what is the matter with the credit of our country, and this is the reason why France can borrow money on so much better terms than our own country is able to obtain

Democracy on the Rampage at the Dalles

A note from the Dalles, dated yesterday gives us some account of a characteristic Democratic splurge at that place, on the evening before J. H Reed of this place addressed a rabble of the unterrified, and in the course of a ribald vulgar and obscene tirade, took occasion to abuse Gen. Palmer in a most unprovoked manner Our informant furnishes a bit of a synopsis of Reed's speech (so-called) He declared in the most emphatic manner that the 8th resolution was the one of all others that the *true* Democracy endorses, and he construed it as having the meaning given to it by the *Herald*, Mr Fay, etc The Chinaman, however, was the burden of his song This competitive heathen, he said, is to be employed on the railroad, and on the public buildings, after the 6th of June Of course, Reed knows! He followed the cue given by Grover, in the charge that President Grant is looking to the establishment of an empire, and the enforcement of the 15th amendment by Federal bayonets, etc Holladay came in for a full round of abuse But Reed forgot, as did the Albany Convention, to say anything about railroads or railroad men except to berate them Our informant says it would be almost impossible to aggregate in regard to the intemperate, abusive and vulgar language made use of by Reed and Gates, who followed him in a short harangue He adds Altogether, the meeting was a success for the Republicans and they earnestly pray that, if the Democracy choose to open the canvass in *such* style, they will continue it, as the effect cannot be other than to disgust and drive away from the support of the Democratic ticket many men who regard decency as a commendable quality, even in politics

Republican Primaries

It is desirable that there should be a full and general attendance at the Republican primaries to-day. From indications which have appeared we may suppose there will be an active contest between the candidates for the leading offices, but the contest appears to have been carried out so far without acrimonious feeling Our political opponents have heretofore sometimes taken an interest on these occasions in the affairs of the Republican party, and this has occasionally created discontent On this occasion Republicans should be on hand to see that this is not repeated A good many Democrats of the sort which the *Herald* has called irresponsible vagabonds are always ready to take part in political business that does not concern them and they should be rigidly excluded We speak plainly about this matter because it is important to the harmony and success of the party that the primaries be properly conducted After this preliminary contest is over the party must and will be prepared to go into the canvass with an earnestness, unity and strength which will carry it to triumph in the election

Editorial Notes

Mr Grover is quite frantic in his appeals to all Democrats to come up to his support We may presume that his views on this subject have undergone some change since 1859 60 when he was quite willing that Messrs Stout and Shiel should be sacrificed In those times Mr Grover had no appeals to make on the necessity of standing by party nominations

The weighty individual who runs the *Enterprise* is like Mrs Gummidge in David Copperfield Everything goes contrary with him A few weeks ago he found out that white men were at work on the railroad in Clackamas county and was sore exercised about "the fraud and colonization schemes of the Railroads [illegible] himself up in his own inconsistencies

A Democratic editor exists in Clackamas county for whom the Republicans there are responsible Some time ago he want[illegible] [illegible] *Enterprise* heightened supposed enemy and [illegible]

[illegible] of the Democratic organs have [illegible] as [illegible] that Ben Holladay is playing a [illegible] the Constitution of the State [illegible] the State to build his railroad and thus [illegible] on the [illegible] The *States* [illegible] says on this subject Amendments to the State Constitution have to be acted on by two successive Legislatures and then submitted to the vote of the people So if an amendment is proposed and passes the Legislature next fall it must come again for action before the Legislature of 1872 and if then successful must be submitted to the people at the next general election in 1874 and legislation to be passed in accordance with the amendments which the people may happen to adopt can be executed that fall As Ben Holladay hasn't asked yet for a change of the Constitution and it doesn't seem inclined to wait four years to build the road we respectfully suggest that Grover's organ cannot make a constitutional argument at his expense

The Argumentum Ad Hominem

The OREGONIAN endeavors to use up Mr Grover [illegible] on the Chinese question It asks him to inform the public whether he has not left a Chinaman in his kitchen at home This style of argument is to use one of the OREGONIAN'S favorite expressions—exceedingly disingenuous What does it matter whether Mr Grover hires Chinamen to work for him or not? The question in issue between the parties is not who employs them? but who has caused them to come here giving some the desired opportunity to use their labor and making it necessary for others to do so in self defense? The Republican party is responsible for the Chinaman's *presence* here and it is therefore, responsible for his *employment* whether he be in the service of Republicans or of Democrats Let the day laborers of Oregon remember this —*Herald*

Talk about disingenuousness after that! It is impossible to do the subject justice The Republican party is responsible for the China man's *presence* here and it is therefore responsible for his employment whether he be in the service of Republicans or Democrats! There are just two material errors here First it is the Democratic, not the Republican party that is responsible for the presence of Chinese in this country for it was the Democratic party that first allowed them to come made treaties that enabled them to come, and thus inaugurated the policy that brought them here by thousands long before the Republican party got control of the Government The most that can be said against the Republican party then is that it has not reversed a policy that the Democratic party originated Second, it is no excuse for Democrats, professing the principles they do to employ Chinese, on the allegation that Republicans do the same For it is a fact that Democrats are just as eager to hire Chinese as Republicans are, when they see a chance to make or save anything by it and it is a further fact, as has been stated heretofore on *Democratic* authority, that a majority of those who apply in this city for Chinese laborers or servants are Democratic in politics Thus it appears that Democrats are even *more* eager to employ Chinese than Republicans are and therefore that they cannot throw the blame of it if any blame exists upon Republicans

But, says the *Herald*, "what does it matter whether Mr Grover hires Chinamen to work for him or not?" We do not assert that it matters anything but canting Democratic demagogues and politicians do They (including Mr Grover himself), want to make an issue on this subject They say the employment of Chinese in various fields of labor drives white persons out of employment, and reduces them to beggary, but still they are themselves the very persons most forward in employing Chinese It is non sense for Mr Grover to assert that he is *compelled* to hire Chinese because Republicans do He can get white servants for his house (when he can get them at all) just as cheap as Chinese Why therefore does he employ Chinese? Either because they are better servants or because he cannot rely on obtaining white persons for steady service But if he is really honest in what he says on this subject he will dispense entirely with Chinese servants in future The argument the way we put it in our inquiry to Mr Grover is really the *argumentum ad hominem* and cannot be answered Mr Grover is intelligent enough to know that his harangues on this subject are the silliest of claptraps the shallowest of humbugs but then he thinks he is talking to people who are unintelligent enough to credit what he says A flattering opinion he has of the intelligence of the people truly

Scintillations of Genius

The following appeared in the local column of the *Herald* yesterday It is evidently one of the productions of Grasshopper Jim's genius and got into the local column by mistake It was clearly designed for a leading editorial

The rat that has infested our sanctum is dead He lived a long time but he is dead He made a desperate fight but he is dead We are glad We can lick anybody that ain't glad Darn the rat He ate up some documents we were saving to quote on the Radicals He bored a hole in a bunk He upset a bottle of ink He wouldn't go into a trap we set for him He ate up the bait without greasing his nose He was a bad egg The pressman killed him and we [illegible] to the pressman our hearty thanks Bad luck to all rats

The reason [illegible] is so clear that this way to [illegible] style and [illegible] to the articles that have frequently appeared [illegible] the *Herald* during several [illegible] July [illegible] essay on [illegible] and then [illegible] emanations [illegible] humbug [illegible] ruth Darn the [illegible] endways It's gone Bad luck to [illegible]

In both these extracts the reader must recognize the same lively genius the same exuberant fancy But we submit the suggestion whether justice is done to the author's genius by allowing the [illegible] to be crowded out of the [illegible] and thus obscured We feel that we have done our duty in endeavoring to rescue it from the fate of those many gems of purest ray serene which the dark unfathomed caves of ocean bear

RELIEVE THE DISTRESSED A movement was started in this city yesterday morning to relieve the wants of Mrs [illegible] and her children, left without the means of support by the death of her husband on the *21st*, and in addition to a very liberal subscription the ladies of Trinity Parish have decided to repeat the [illegible] of Thursday evening in behalf of this object and as the Philharmonic Society, 23d Infantry Band Miss Mayo and Mrs Callahan have volunteered for the occasion a grand [illegible] of vocal and instrumental music may be anticipated at Oro Fino Theater this evening Those who attend [illegible] by the purchase of tickets will be aiding the worthy widow and orphans in distress [illegible] have tendered the Theatre freely and [illegible] is very probable that that [illegible] will be marked by a full house [illegible] occasion for so laudable an object

CITY.

DAIRIES AND DAIRYING —All people like a good article of butter and as Oregonians, as a general thing, are not proverbial for making the most excellent quality of butter, Dr J C Hawthorne, of East Portland, has generously offered the sum of $75 as an extra premium for the best butter of certain quantity to be exhibited at the next State Fair This is a subject of vital importance to Oregon—and Dr Hawthorne has the thanks of all right minded people for his generous offer. It is of very much more value to the community that such a premium be offered for butter, than to have twice that amount given as a bonus for superior "bottom" in a trotting horse. No country in the world bids higher for dairies and dairying than this self same Webfoot nation. At this time we are shipping about an average of 1,000 to 1,500 firkins of butter to California In these shipments no part of the best quality is included, for the reason that the home demand is in excess of the supply monthly We have merchants in this county which are unable to supply their customers at fifty cents per pound in this city the year round California incorporates her receipts of butter and cheese from us into her exports to China, Japan and the Islands, and we have been advised by a shipmaster who took a quantity of butter from this port in 1869, to San Francisco, and thence a part of the same in the original packages to Honolulu, that after he left San Francisco the shipment was credited to California. In California, when the price falls below 40 cents per pound, dairymen pack down their butter, and secure it for a better market and it is estimated the last year 6,000,000 pounds of butter and 5,000,000 pounds of cheese, were made in that State—and according to the *Commercial Herald*, in the meantime 25 389 firkins came to the State by steamer from Atlantic ports, and 3,154 kegs by Pacific railroads and firkins and 3 154 kegs by Pacific railroads besides a considerable quantity in other packages Considering the proximity of Oregon to this market, without a foreign trade of our own there is no good reason why Portland cannot to make the sum of at least half that amount of supply and we recommend the subject and the efforts of Dr Hawthorne to the serious and candid reflection of our agriculturalists and business men

DOMESTIC INFELICITY.—An unfortunate woman who some years since embarked upon what seems a [illegible] life, with a man who appears to [illegible] husband, applied to Recorder [illegible] on Thursday last for a writ of arrest for the [illegible] of her joys and sorrows, saying that she could no longer stand his abusiveness, and must have him put in a safe place. After listening to her story, and criticising the movement, the officer at [illegible] and she went away happy in the knowledge that her "brute of a man" would [illegible] through the grates of the [illegible] Bar. During the night she pondered over her lonely situation, and began to relent, thinking how her poor husband must feel, looking into the dim star light through the [illegible] iron gratings of this mod [illegible] and at the first dawn of day resolved in her heart to prosecute the case no farther, but [illegible] and continue the voyage of life with [illegible] commander. Hence, when the hour arrived for him to appear in Court, she was not there nor thereabouts, and Recorder Anderson [illegible] in order that justice might be [illegible] taxed to her, and the defendant [illegible]. Upon this decision the person [illegible] paid his wife's costs and took his [illegible]

RELIEVE THE DISTRESSED.—A movement was started in this city yesterday morning to relieve the wants of Mrs. Dupinning and her children, [illegible] of the means of support by the death of [illegible] on the 21st, and in addition to a [illegible] subscription, the ladies of Trinity [illegible] to repeat the Tableaux Vivants [illegible] evening in behalf of this object and [illegible] Philharmonic Society, 23d Infantry [illegible] and Mrs Callahan, have volunteered [illegible] a grand concert of vocal and instrumental music may be anticipated at Oro Fino Theatre this evening Those who attend, [illegible] the purchase of tickets, will be aiding the worthy widow and orphans in distress [illegible] & Knowles have tendered the Theatre freely, and it is very probable that that the [illegible] of the community will be marked by a full house on this occasion, for so laudable an object.

UNION MUTUAL LIFE INSURANCE COMPANY — Mr. E. B. Wores has been appointed General Agent of the Union Mutual Life Insurance Company for Oregon and Washington Territory, and is about to establish himself in this city as manager of that old and reliable institution Mr [illegible] is selected from the number of active and [illegible] agents employed by the Company for the important agency in this State—a just mark of appreciation of his well known business capacity and eminently social qualities The Union Mutual is one of the oldest New England Companies and offers all the advantages of Life Assurance with the amplest security to the Policy holder. H. H. Johnston, long and favorably known in Portland and vicinity, is General Manager of this Company for the Pacific coast.

SHAKE-HIS ENERGETIC.—We sought out our old friend W. P Burns last evening, and found him snugly ensconsed at the Occidental but he accepted our invitation to take a walk and came around to see the boys in the office with whom he was acquainted, who were all glad to greet him Upon reaching the old sign, "OREGONIAN OFFICE," Mr. B. involuntarily took off his hat, and silently wished us three cheers The silent but emphatic display confirmed us in the opinion that his Republican tendencies were as strong as ever Friend Burns will prove to be a strong spoke in the Republican wheel to the present canvass in Clackamas county The Democracy there would rather see any other man than ex Sheriff Burns

The Troy (N Y) *Times* reports the following curious case A farmer residing in Bristol, Ontario county, in this State, is a somnambulist One day while working in a field he lost an iron tooth from the harrow with which he was putting in his wheat crop He hunted an hour to find it, but was unsuccessful. During the ensuing night he arose from his bed, partially dressed himself, and started out. The night was very dark one of his boys followed him with a lantern He kept up a running talk with himself about the "drag tooth" He walked in a straight line to the field where he had been laboring, perhaps a quarter of a mile from his residence. Arriving at a certain point he stopped short, kicked away some earth and brought forth the missing tooth! Then turning square around he proceeded directly to his home Arriving at the door he performed the feat of lifting the heavy stone step, which required the combined strength of himself and another man to raise the next morning. He threw the iron under the step, let down the stone easily, saying "there you are and can't get away again," and then cooly, and apparently without the least excitement, retired to his chamber, disrobed himself and went to bed He was entirely unconscious the next morning of what he had been doing. Now the question is, what peculiar power enabled the man to perform this wonderful feat? It would seem little less than a miracle, but of its truth as related there is no doubt.

A "Young Mother," has sent a little poem upon "Baby" to a San Francisco newspaper. Whereupon the editor, after regretting that he has not space for the titbit, tells the author that she has the trifling fault, common to all young writers, of sacrificing sense to melody, and gives the following stanza as an illustration:

"Doxery doodle um dinkle-um,
Tum to its m[illegible] mullun[illegible] mum;
Tuxxery izzery boosery boo,
No baby so sweet and so pitty as oo."

That editor should be informed that babies don't want sense, but musical nonsense.

FINANCE AND COMMERCE.

PORTLAND, April 22, 1870.

Portland Legal Tender rates 89a90.

We have received no gold dispatches for some days. The money market is somewhat easier, and the prospect of a good mining season and an abundant harvest which the people of the Pacific coast have at this time, the financial out look is not discouraging. Owing to the fact that a larger number of men will be employed in our State the present, than have been during any former season, the money circulation of the country will be greater. Wages are good, and the prices paid to laboring men and mechanics are firm, while the cost of living is being reduced every year. The high rates of transportation and rent both, are also tending to settle towards a more proportionate basis, and by the exercise of the same economy as mu[illegible]h wealth may be accumulated in this country as in any other part of the world possessing the same advantages other[illegible].

The good boating stage of the water in the Columbia and Wallamet rivers, has created a greater amount of business with the interior than would otherwise exist, those [illegible] who are [illegible]lly supplied here being anxious to get in a full stock before the high water recedes. As a consequence, we believe that wholesale dealers and jobbers are doing a very fair amount of business considering the general complaint of dull times. Trade today has been very good and dealers are in good heart. Prices are unchanged from our last quotations. Farmers are busy with their spring crops and the retail trade in Portland is mostly confined to city custom. The receipts of produce other than by water transportation, for the past few days, have fallen off. A private letter from New York, of the 4th inst. informs us that there is not a barrel of Oregon flour in that market.

Produce Receipts.

The manifests of the *Senator* and *Alert*, from Oregon City yesterday were as follows: 2,824 sks flour, 300 sks wheat, 301 sks bran, 54 sks feed, 92 sks barley, 148 boxes apples, 6 sks dried fruit, 22 boxes eggs, 7 gunnies bacon, 58 sks hair, and 15 pkgs miscellaneous mdse.

H. T. HELMBOLD'S

CONCENTRATED

FLUID EXTRACT BUCHU.

The Great Diuretic.

THE PROPRIETOR TRUSTS THAT HIS REMEDIES from the fact of being advertised, may not be classed as patent medicines.

BUCHU in one form or other has been presented by every educated physician for more than

TWO HUNDRED YEARS.

H T HELMBOLD claims a superior mode of extracting its virtues. The experiments were made while engaged in the DRUG business in the city of Philadelphia 19 years ago, prompted by the alarming increase of diseases of the Bladder, Kidneys, Gravel and Urinary Organs existing in both sexes. These diseases were attracting as much attention as diseases of the liver or any other organ of the body. Upon the sound and healthy condition of these organs, the nervous system and liver were involved, and the happiness of the entire human family depended.

The BUCHU, acting favorably upon both Liver and Kidneys, to prepare it so it would retain its strength and active principle was his aim It must not be made as housekeepers make tea, by boiling It is a delicate Leaf, and its active principle would be destroyed by such a process It must be prepared in VACUO, and of the lone leaf, fresh and carefully selected.

THE SUPERIORITY OF MY MODE OF PREPARATION IS ACKNOWLEDGED. I now ship to the point (CAPE OF GOOD HOPE) where the leaves are gathered large quantities of

My Fluid Extract.

THE ARTICLE STANDS PRE EMINENT, AND IS KNOWN IN ALL PARTS OF THE WORLD.

The first and most important object was to offer to the afflicted a remedy that was perfectly safe, and could be taken by adults—children. Ignorant persons, who pay no attention to dose, direction or advice, who might reason, "That if a teaspoonful taken occasionally did good, two would do better, and perhaps a bottle would cure in a day."

Many have broken down their health by dissipation and on this principle, but they had been years in doing so

What I would have understood is that no injury can arise from its use. It is as safe as any article of food, but patients must not expect any medicine to rebuild a wrecked or shattered constitution in a few days, and perhaps with a single bottle.

Notwithstanding the number of years I have been engaged in business, there may be those located at a distance that may not be aware of all the facts, and would like to be satisfied on all the points Having been educated a druggist, I append the following

From the Largest Manufacturing Chemist in the World.

"I am acquainted with Mr. H. T. Helmbold. He occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise.

I propose to give evidence that this remedy is not a Patent Medicine. The objection which generally lies against all discoveries and inventions in medicine is "*Publicity*." If somebody should discover a remedy to prolong life, or an infallible cure for cholera or consumption, what a monster would he be to withhold his knowledge We have yet to learn from what chapter or verse in Scripture to quote, "that men may not *heal others of their fellow-men of any disease*."

Nor have we asked "*Pickwicks, Affected Prudes*, or in short, *men who are possessed of every kind of sense but common sense, and all kinds of opinions but their own*. The Buchu is a good thing—it has hundreds of thousands of living witnesses to attest its virtues and commend it It is the prejudice of bigots and the envy of "Quacks"

BUCHU.—Its odor is strong, diffusive and somewhat aromatic; its taste is bitterish, and analogous to that of mint It is given chiefly in complaints of the urinary organs such as gravel, chronic catarrh of the bladder, morbid irritation of the bladder and urethra, diseases of the prostate gland, and retention or the incontinence of urine, from a loss of tone in the parts concerned in its evacuation It has also been recommended in dyspepsia, chronic rheumatism, cutaneous affections and dropsy

Cure of Gravel of Five Years' Standing —Stone Passed and to be Seen

SAVANNAH, Tenn., May 14, 1860.

Dr H T HELMBOLD:—Dear Sir. We introduced your "Fluid Extract Buchu" in this country about eight months ago, and are happy to state that it is meeting with universal favor. We wish to inform you of one instance (among many) where your "Buchu" has worked wonders A man in our county, named J B Estell, had been suffering about five years with gravel About six weeks ago he bought of us one bottle of your "Buchu," and before he was through with one bottle he passed a gravel that weighs eight grains, which we now have on exhibition in our drug store He says that he will never be without the "Buchu" in his house again. Your preparations are gaining favor every day

THANKS TO MR HELMBOLD

GIRARD Pa, March 31, 1861

Editor Union of Life I desire as an unsolicited tribute to the merits of Helmbold's Buchu, and for the benefit of those similarly afflicted as myself, to say that after consulting many eminent physicians, and trying nearly all the best advertised remedies, in the vain hope of finding relief from aggravated kidney and bladder diseases, from which I have suffered excessively for many years good fortune finally suggested to me Helmbold's Buchu, which I commenced using, with little faith and no apparent beneficial results, for about a month At the expiration of that time, however, I thought I commenced to experience slight relief, which encouraged me to persevere in its use and now, at the expiration of four months, although I am an infirm old man, nearly seventy eight years of ago, and consequently medicines cannot be expected to favorably affect me as they otherwise would, I have found such unspeakable relief and permanent benefit from Mr. Helmbold's valuable discovery, that I feel I ought to publicly record the fact as an acknowledgment to him and a valuable suggestion to the public. DR. KEYSER,

A PHYSICIAN OF OVER THIRTY YEARS' EXPERIENCE AND A GRADUATE OF THE JEFFERSON MEDICAL COLLEGE AND OF THE UNIVERSITY OF MEDICINE AND SURGERY OF PHILADELPHIA

MR H T HELMBOLD—DEAR SIR In regard to the question asked me as to my opinion about Buchu I should say that I have used and sold the article in various forms for the past thirty years I do not think there is any form of preparation of it I have not used, or known to be used, in the various diseases where such medicine agent will be indicated You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgment, is warranted by the facts.

I have seen and used, as before stated, every form of Buchu—the powdered leaves, fluid extracts—and I am not cognizant of any preparation of that plant at all equal to yours Twelve years' experience ought I think, to give me the right to judge of its merits, and, without prejudice or partiality, I give yours preference over all others.

I value your Buchu for its effect on patients I have cured with it, and seen cured with it more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu, or any other proprietary compound of whatever name Respectfully yours, &c,

GEO. H. KEYSER, M. D.

A Case of Twenty Years' Standing.

PHILADELPHIA, Penn., June 25 1867

H T HELMBOLD, Druggist—Dear Sir I have been a sufferer for upward of twenty years with gravel, bladder and kidney affections during which time I have used various medicinal preparations, and been under the treatment of the most eminent physicians, experiencing but little relief

Having seen your preparations extensively advertised, I consulted my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy As you advertised that it was composed of buchu, cubebs and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice after an examination of the article and consulting again with the druggist, I concluded to try it I commenced to use it about eight months ago, at which time I was confined to my room

From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks was able to walk out I felt much like writing to you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer, and see if it would effect a perfect cure, knowing that it would be of greater value to you and more satisfactory.

I am now able to report that a cure is effected, after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system I do not mean to be without it whenever occasion may require its use on such affections.

H. T. HELMBOLD, Esq—Dear Sir: I take great pleasure in sending you a certificate, in addition to the many you have received from suffering humanity I can scarcely find language sufficiently strong to express my heartfelt gratification at the wonderful cure your "Buchu" has effected. For four years I have suffered beyond description All my friends (with myself) came to the conclusion that my case was incurable. Accident placed your advertisement in my hands I commenced taking your "Buchu" I followed directions, and to my utter astonishment before I had taken seven bottles of your valuable medicine (I would give $100 a bottle, if I could not get it at any other price) I am entirely cured. I most earnestly recommend it to all those suffering from disease I have told many persons to take your valuable medicine, and they are doing so with great success Any information my fellow-citizens may require will be freely given by the subscriber, at his residence, No 78 Milton ave, Rahway, New Jersey

Cure of Nervous Prostration and Decline of a Young Lady.

H T HELMBOLD I have been giving your Extract Buchu to my daughter, who has been unable to to sleep, very nervous loss of appetite, general debility and rapid falling into decline—in fact, consumption was talked of. I was recommended to use your BUCHU by a highly respectable lady of this place, who had given it to her son with complete success. My daughter has been troubled for a long time I purchased one bottle some eight weeks since, which lasted one week, and from which she received great benefit and induced me to purchase one half dozen bottles, as I had tried many other remedies, and my family physician, to no avail. It is now more than two weeks since she has taken the last bottle and I am happy to inform you of its complete success Very truly yours,

A Permanent Cure of Gravel of Twelve Years' Standing—Stone Passed to be Seen

BURNSIDE, Conn Dec 15, 1869.

DR. HELMBOLD

Dear Sir, It is with much pleasure that I write you upon facts respecting myself I do not know hardly how to express myself. I have been for the past ten years the greatest sufferer man could be and live; but more sometimes than others. The complaint was the "Kidneys" and "Bladder," I have been sometimes from twelve to fourteen hours, and wanted to make water every minute, but could not Have consulted doctors, both in Massachusetts and this State, and taken pills, I may say by the quart, also liquored medicines, but found no relief from any, and got worse the last six months. I was so bad that I could scarcely get about. I could not rest night or day. It would soon have been "all up" with me, if I had not seen your advertisement in the Berkshire *Courier*, headed "Kidneys." I read it through, and thought I would try it. I purchased a bottle, but, mind you, had not much faith in it. Why should I, when I had been trying so many things, and cost me so much? Well, I began taking it, and before I had taken the first bottle I felt bad; but I had finished it and got another. By the time I took half of the second I still got worse (apparently) When I walked it seemed as if my right kidney was falling from its place, and I felt really bad I felt so, before I had finished the second, that I had made up my mind it was of no use trying any more—and all this time the "Buchu" was doing its work, but I did not know it, so I gave it up, and went to Hartford on Saturday to one of the best doctors in the city. He said it was the neck of the bladder, and I should have to undergo an operation. He gave me medicine, and I went home quite downhearted. On Sunday I was unable to go to church I had not taken any of his medicine, but on my return continued using the "Buchu," and in the afternoon I had a desire to make water, but could not. About one hour after I tried again, with the same result; but the next time I took the vessel it was the same as turning a faucet and stopping it off again. It was so for three times, and the third time there was something came through the passage and struck against the side of the vessel. I examined it, and it is the ugliest stone or gravel you ever saw, covered over with little pieces which collected together. It looks the color of a mud turtle and is as hard as a flint. So you see the Buchu was doing its work, although I was feeling so badly, I procured another bottle, thinking there might be some more behind; but since that has passed, which is eight weeks ago last Sunday, I have been as well as ever I was in my life I have the stone securely wrapped, and those who have seen the stone in this place are surprised I cannot tell you all, but this is a true story of my case, and you are welcome to make such use of my name as you think proper. I am pretty well known in Berkshire, also in Connecticut The advertisement saved me Why not publish more? The Springfield *Republican* is a wide spread paper If any one wishes to see this wonder they can do so. I could write all day, but think I have said enough this time, so I remain your ever well wisher. EDWARD L. HOWARD,

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea Gleet Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system Look at their pallid, sweated and disfigured faces and their broken-down appetites, disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots [illegible] about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats, monomania and frequently insanity If relief be not obtained, should apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage, who are suffering [illegible] any of these fearful maladies should not forget the sacred responsibility resting upon them nor delay obtaining immediate relief

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to [illegible] a radical and permanent cure, or make no charge

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon, stating case, symptoms, length of time the disease has continued and have medicines promptly forwarded, free from damage and curiosity to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades Some are tinsmiths, shoe makers, newspaper carriers, intelligence office keepers etc Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863 The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are Dr Gibbon does not deceive people by exhibiting bogus titles certificates pretended patient's letters &c Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure
